- **Web Development:** HTML5, CSS3, JavaScript (ES6+), Bootstrap , Ajax Technique, Node.js, Express.js and PHP.
- **Frameworks & Libraries:** .NET Framework , jQuery and express js.
- **Databases :** MySQL, SQL 10G, MariaDb, MongoDB
- **Tools :** Git, GitHub, Visual Studio, VS Code, IntelliJ IDEA, Postman, Hopscotch
- **Designing Tools:** Canva.
- **Soft Skills:** Problem-Solving, Communication, Team Collaboration, Analytical Thinking, Fast Learner.

# PROJECTS

---

## Event Management System

**Tech:** Node.js, Express.js, MySQL, JavaScript, HTML, CSS

- Developed a full-stack event platform that handled 50+ simulated event entries, with secure admin access and real-time updates, improving mock event tracking by 40%.
- Built RESTful APIs to handle secure admin logins and CRUD event operations.
- Designed a responsive front-end and intuitive dashboard, improving admin task efficiency by 40%.

## Transport Management System

**Tech:** PHP, MySQL, HTML, CSS, JavaScript.

- Engineered a CRUD-based transport system managing 100+ transport records, enabling staff to perform create/read/update/delete tasks with 100% dynamic frontend feedback using JavaScript & PHP.
- Created a responsive UI and backend logic to manage 100+ transport records.
- Improved form processing and data updates by 30% using optimized SQL queries.

## Virtual Assistant

**Tech:** JavaScript, HTML, CSS

- Designed a virtual assistant that responded to 10+ unique voice commands using Web Speech API, improving voice-based interaction and user engagement by 30%.
- Implemented real-time responses for greetings, time/date, and voice search.
- Enhanced accessibility and user engagement through voice input/output features.

## Netflix Clone (Frontend Only)

**Tech:** HTML, CSS, JavaScript

- Developed a responsive UI clone with 20+ interactive movie cards.
- Built a stylish login interface with JavaScript validation and error handling, reducing form errors by 30%.

# COURSES AND CERTIFICATION

---

- Introduction to Front-End Development –**Coursera**
- Introduction to MongoDB –**Coursera**
- Ajax for web Developers –**Coursera**
- Intermediate SQL – **DataCamp**
- Introduction to PHP – **Simplilearn**
- Developing Back-End Apps with Node.js and Express – **Coursera**
- APIs in Node.js: Write a RESTful API Backend Application – **Coursera**
